

Salary Analysis of Data-Related Jobs from 2008-2015
(Green Card and H1B Visa holders)

Introduction	Total number of jobs and median paid wage per year	Median paid wage per year by job and visa class	Difference between paid and prevailing wage	Paid wage vs. wage adjusted for cost of living in each state	States with the highest adjusted paid wage	Companies with the highest adjusted paid wage
--------------	--	---	---	--	--	---

This project aims to investigate the salary trend of four data-related jobs: **business analyst**, **data analyst**, **data scientist**, and **software engineer**.

Samples included in the analysis are **Green Card Holders** and **H1B Visa Holders**.

Originated from the 2008-15 Office of Foreign Labor Certification website, the dataset is provided by Duke University through Coursera.
